Points: ( /10)

After walking around and seeing everyone's designs, with your table group decide whose project deserves each award. Place the token next to the project that you and your group think has the "Best Focal Point", shows the "Best Effort", etc. In the blanks provided on this sheet write down the name of the person you selected for each award and then explain why it got your vote. To receive full credit you must answer in FULL sentences and go beyond "I like it" or "it's cool."
